EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frederick Cooperrider on 9/25/2006.

2. The application has been amended as follows:

Cancel claims 4 and 18.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/19/2006 has been entered.

Election/Restrictions

4. Claims 1 and 15 are allowable. The restriction requirement between species, as set forth in the Office action mailed on 5/4/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2, 10-14, and 16 directed to non-elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may

be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claims 4 and 18 have been canceled by examiner's amendment. With regards to those claims the provisions of 35 U.S.C. 121 are still applicable.

Allowable Subject Matter

5. Claims 1-3, 5-17, 19, and 20 are allowed.
6. The following is an examiner's statement of reasons for allowance: Independent claims 1 and 15 have been amended to include limitations that were not found in the prior art, specifically that the support members have a predetermined length being different for one linear image display device from another linear display device as shown in figure 4 of applicant's drawings. This was not found in the prior art in combination with all of the other limitations of applicant's independent claims. Claims 2, 3, 5-14, 16, 17, 19, and 20 are dependent on claims 1 and 15 and are allowed for at least that reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
